

Epson EB-925 [240v]

DATASHEET

Make presentations brighter with the Epson EB-925, which gives a super-clear XGA picture, has smart features to enhance meetings and is easy to set up.

Project a perfect XGA image, even in daylight, and keep the lights on so your audience can take notes; Epson's 3LCD technology and an ultra-high White and Colour Light Output of 3,500 lumens deliver superb clarity in all conditions.

Make presentations more effective

The EB-925 useful features can make presentations more effective. The powerful 16W integrated speaker helps your audience hear clearly, and there's a handy microphone input. Share 3D objects on the big screen by connecting to Epson's ELP-DC06 document camera. You can also share pictures with your audience by projecting directly from your USB drive, camera or portable hard drive using the EasyMP slideshow feature.

Hassle-free installation

Whatever your room layout, installing the EB-925 is straightforward. Even if the projector is at an angle to the screen, you can quickly align the picture using automatic vertical and manual horizontal keystone correction, and the x1.6 optical zoom adds further flexibility. For easy desktop use, the projector's pull-out foot supports a tilt angle of up to 16 degrees.

Easy control and maintenance

Easily control and monitor your projector fleet using Epson's EasyMP advanced networking features. Broadcast image and sound over your network via the LAN input. Save time and hassle by adjusting settings, such as projector on/off times, from a single point on your network. And remove the need for physical checks and free up your IT staff by setting up automatic email alerts for temperature and lamp status.

Wide connectivity

The EB-925 has plenty of connectivity options to suit your needs, including an HDMI input. Connect to your wireless network and present instantly with the optional wireless module and quick wireless connection key. A single USB cable is all that's needed to connect your laptop to the projector thanks to 3-in-1 USB display.

KEY FEATURES

- Perfect picture - 3LCD technology
- Super bright output - 3,500 lumens
White Light Output and 3,500 lumens
Colour Light Output
- Enhanced audio - Integrated 16W speaker
- Easy set-up - Automatic vertical keystone correction
- Clearer sound - Microphone input
