
Epson LabelWorks LW-400

DATASHEET

Create professional labels in the office or on the go with the Epson LabelWorks LW-400. A lightweight, portable electronic label maker weighing 418g, the LW-400 fits easily into your hand and takes care of all desktop and mobile labelling requirements, such as filing, storage, asset tagging and equipment identification.

With its ergonomic buttons and integrated keyboard, the LW-400 is straightforward to use. Dedicated buttons give quick access to cutting and printing functions, while an internal memory allows you to save and recall your favourite 50 label designs at any time. Remaining tape can be checked via a window.

The LW-400 prints up to four lines and offers excellent versatility with eight barcode standards, 14 fonts, five character sizes, 457 symbols, 87 borders and 10 styles, including bold, italic, outline and shadow. See how your labels will look – even in darkness or bright sunlight – thanks to the LW-400's backlit LCD screen.

Epson's wide selection of labels in 6, 9, 12 and 18mm sizes covers virtually every labelling need. The range includes standard, black, transparent and writable matte paper labels, a variety of colours such as fluorescent and pastel, and two adhesive strengths. All Epson labels are very durable, resisting water and withstanding hot and cold conditions.

Economical to use, the LW-400 minimises label margins to cut wastage. Combined with Epson's 9-metre label tape refills, which are the longest on the market, this means you get more labels for your money. Two four-metre label tapes are included to get you started.

When registered on Epson's website, the LW-400's two-year warranty is extended to three years for extra peace of mind.

KEY FEATURES

- Portable electronic label maker with built-in keyboard
- Accepts 6, 9, 12, 18mm tape widths
- Ideal for office labelling, including filing, storage, asset tagging and barcode printing
- Straightforward to use with ergonomic buttons
- Dedicated buttons give quick access to cutting and printing functions
- Save and recall 50 label designs using the internal memory
- Backlit LCD screen for a clear view, whatever the light conditions
