

Expression 11000XL

DATASHEET

High-resolution A3 scanner gives the sharpness and accuracy required to meet the standards of the graphic arts industry.

The Epson Expression 11000XL is a high-resolution A3 scanner designed to meet the most demanding graphic arts applications. Featuring Epson Scan advanced imaging features and exceptional SilverFast Ai8® image-processing functions, this graphic scanner offers excellent image reproduction.

Thanks to the Expression 11000XL's top-of-the-range scanning technology, users can achieve extremely high-quality image reproduction up to A3 format. Easy-to-use, Epson Scan operates in either automatic or professional modes, allowing users to optimize their scanning results.

The Expression 11000XL's optical density of 3.8 DMax and 48-bit colour depth ensure sharp and accurate scanning for full reproduction of the widest range of colours, even in shadow areas. In addition, the high 2400 x 4800dpi resolution and ultra-precise Micro Step Drive technology, enable users to capture even the tiniest details with exceptional clarity.

A comprehensive package of bundled software and imaging technology ensures the Expression 11000XL can perform a wide range of functions easily and efficiently. Epson Scan comes with useful features for removing dust noise and grain reduction to smooth the appearance of images. SilverFast Ai8® is also included, with an intuitive user-friendly interface and image-processing functions to help get even closer to perfect image reproduction.

The optional transparency unit enables users to scan from transparency media, such as positive or negative film and slides, with professional results.
