

# EB-Z9900W

The white EB-Z9900W large venue projector is simple to set up and features 3LCD technology, WXGA resolution and 9,200 lumens brightness.

The flexible EB-Z9900W is an impressive and versatile installation projector. This white model benefits from 9,200 lumens brightness and WXGA resolution. Able to project portrait aspect images for digital signage, the EB-Z9900W has a flexible installation angle, lens shift for off-centre positioning and plenty of calibration options, with optional Wi-Fi and HDBaseT connectivity.

## Clear images and 3LCD technology

At 9,200 lumens the EB-Z9900W is an ultra-bright WXGA resolution projector. This projector benefits from Epson's 3LCD technology, which ensures high-quality images with equally high White and Colour Light Output for vivid colours and bright images, even in daylight, and three times brighter colours than competitive projectors<sup>1</sup>.

## Perfect for large venues

Museums, auditoriums and corporate environments can benefit from the EB-Z9900W's large projected image, ideal for making a big impact.

## Portrait projection

Able to project portrait aspect images, the EB-Z9900W is ideal for digital signage. Welcome to a whole new way of seeing things; portrait mode is also useful when a venue or event, such a fashion show, doesn't lend itself to landscape projection.

## Easy set-up

As well as a flexible installation angle and lens shift for off-centre positioning, the EB-Z9900W includes plenty of calibration options such as edge blending, test patterns and Epson's Super Resolution feature.

## Connectivity

The EB-Z9900W includes HDBaseT, which allows up to five connections in one. Optional Wi-Fi is also included for extra flexibility.

## Short-throw capability

Great news for auditoriums and lecture theatres; a new and exclusive LU02 short throw lens allows this projector to be positioned closer to the screen.
