

Deliver high-quality presentations and reduce shadows with Epson's 3,100-lumen ultra-short-throw projector.

Bring your classroom presentations to life and engage students more with this ultra-short-throw projector. Easy to set up and operate, this device boasts low running costs to suit various budgets and, by connecting Epson add-ons, will help you further enhance your presentations.

Large projections

You can easily achieve a large projected widescreen image of up to 100 inches wide from a very short distance thanks to the EB-485W's super throw ratio of 0.27:1.

Easy installation

Epson has designed this projector to be quick to set up and easy to use. You simply turn on and plug in with the USB functionality. Horizontal keystone correction enables you to easily align straight images and it also has a 16W built-in speaker, so no need to attach to external audio devices. It is delivered with its tailor-made wall-mount for superb integration in the room.

Easily controlled

The EB-485W can be turned on and off with a wall switch using the direct power on/off function, and with quick-start and instant-off functions, no warm-up or cool-down time is needed. For convenient wall-mounted control at the front of the classroom, the projector can be connected to the Epson ELPCB01 Control and Connection Box.

Low costs

Running costs are kept low thanks to a long lamp life of 4,000 hours or four years*1, in eco mode, and 5,000-hour filter life.

High-quality images

Epson's 3LCD technology ensures high-quality images with its equally high White and Colour Light Output for vivid, natural colours and deep blacks, even in daylight. Presentations can be more engaging by plugging in the Epson ELP-DC06 USB Visualiser to show 3D objects close-up while the HDMI input also means high-definition content can be displayed with maximum clarity.

KEY FEATURES

- **Super bright output**
3,100 lumens White/Colour Light Output
- **Ultra-short-throw**
Reduces shadows and glare
- **Large image**
Up to 100 inches, 16/10 wide format
- **Plug and play**
Fast set-up and easy installation
- **Versatile**
Connect additional Epson devices
